OUR SYNERGY BRINGS LIFE TO YOUR SCIENCE

CHEMISTRY

that Connects.

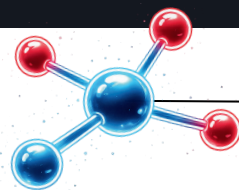

Your Trusted Partner In
Manufacturing API, Starting
Materials, Fine Chemicals

A Leading Global CDMO

PARTNERSHIPS

that Perform.

ABOUT US

Dishman Carbogen Amcis Ltd. is a global outsourcing partner serving the pharmaceutical and life sciences industry with integrated development and manufacturing solutions. With manufacturing operations in India, China, and Europe, and a global customer base, we help pharmaceutical companies accelerate product development while ensuring quality, compliance, and reliable supply.

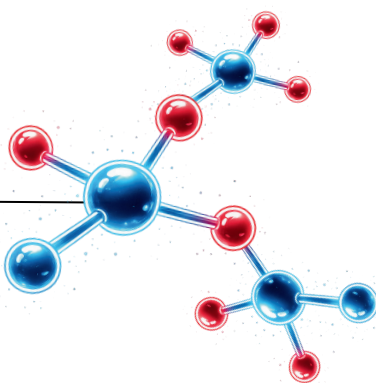

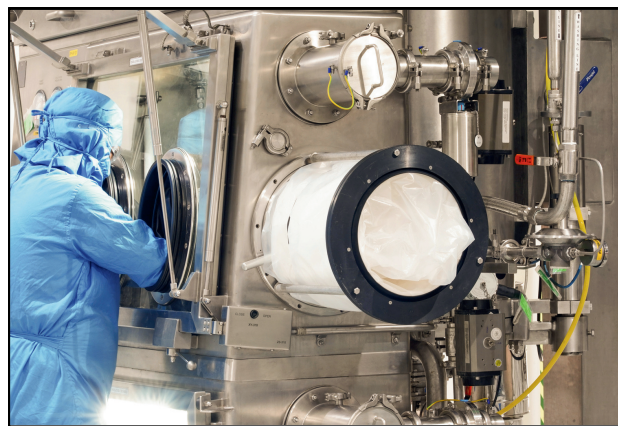

Our expertise spans **APIs, API Intermediates, Starting Materials, Fine Chemicals, and Contract Development & Manufacturing (CDMO) services**, supporting customers from development through commercialisation.

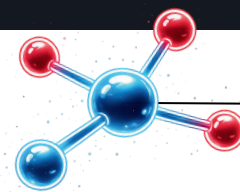

WHAT DO WE DO?

We provide end-to-end pharmaceutical manufacturing solutions, including:

- API Development & Manufacturing
- API Intermediates & Starting Materials
- Contract Development & Manufacturing (CDMO)
- Fine Chemicals
- Highly Potent APIs (HiPo)
- Technology Transfer & Scale-Up
- Analytical & Regulatory Support

OUR COMPETENCIES

Large-Scale API Development & Manufacturing

Comprehensive development and commercial manufacturing capabilities supported by scalable processes and global quality standards.

Drug Life Cycle Management

Continuous process optimisation, regulatory support, and lifecycle improvements to maximise product value.

Complex Materials Manufacturing

Reliable supply of cGMP and non-cGMP materials backed by stringent quality systems.

Dedicated Project Management

Cross-functional project teams ensuring transparency, efficient execution, and on-time delivery.

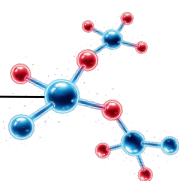

State-of-the-Art Infrastructure

Modern manufacturing facilities, advanced laboratories, temperature-controlled warehouses, and global quality systems supporting every stage of production.

Analytical Method Development & Validation

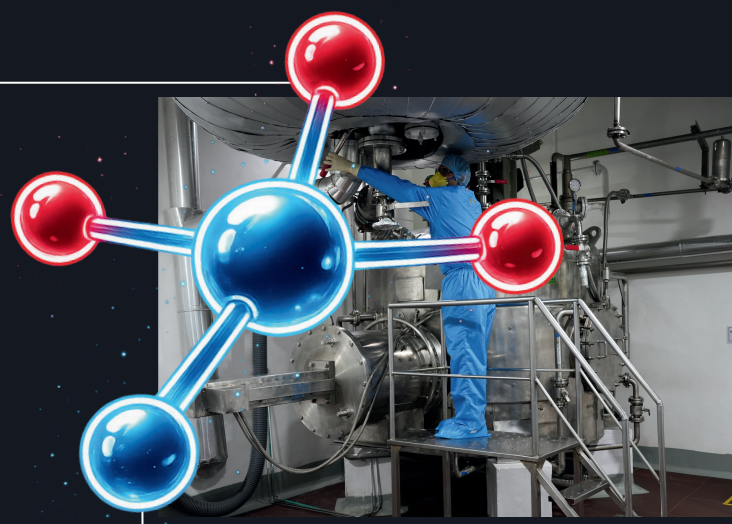

Advanced chromatography, spectroscopy, elemental analysis, and stability testing ensure product quality and regulatory compliance.

Why Partner with Dishman Carbogen Amcis?

- Global CDMO expertise
- End-to-end pharmaceutical solutions
- Advanced manufacturing infrastructure
- Regulatory compliance with international standards
- Strong quality management systems
- Customer-focused project execution
